## COACH EMERGENCY ACTION PLAN

The Oakville Soccer Club's Coach Emergency Action Plan has been implemented to ensure that all coaches, team officials and Adult League captains understand what is required of them in the event of an incident or injury during an OSC sanctioned game or practice.

### **Incident Reports**

OSC mandates that in the event of an incident or injury during a Club sanctioned game or practice that an Injury/Incident Report **must** be completed by the coach or team official and the following protocol be adhered to. Please note this applies to all coaches/team officials/referees in OSC's House League and ADP/RDP programs, and to all coaches/team captains in OSC's Adult League.

### **Incidents & Injuries**

An incident or injury includes any occurrence that should be brought to the Club's attention including but not limited to:

- \* Any and all injuries, whether minor or major
- \* Verbal and/or physical altercations between any parties associated with the game/practice (coaches, players, parents, referees, spectators, etc.)
- \* Any instance in which Emergency Services (Police, Fire, Ambulance) are notified/required to attend the scene

### **Minor vs. Major Incidents/Injuries**

A minor incident would be a situation which was solved/rectified on the spot by the parties involved and did not consist of violent or aggressive behaviour.

A minor injury would include but is not limited to an injury that did not require medical attention immediately or after the event.

A major incident would include but is not limited to a situation which involved a physical altercation, verbal abuse or harassment, bullying, etc. and required further resolution and/or required the notification of Emergency Services.

A major injury would include but is not limited to an injury that required first aid and/or medical attention immediately or in the days following the occurrence. Any time Emergency Services or medical attention is required (EMS attending the scene or parental transport to a hospital, urgent care centre or doctor's office), it is considered a major injury.

When having difficulty determining whether an incident or injury is minor or major, please err on the side of caution and adhere to the major incident/injury protocol. In the event of a head injury, please use the [Concussion Recognition Tool](#) and adhere to [OSC's Concussion/Return to Play Protocol](#).
